

## Technology Internships at COUNTRY Financial

We are seeking talented technology interns for roles as Software Engineers, Developers and Security Analysts.

Our interns work side by side with full-time COUNTRY employees on real projects with real impact. During the summer there are several opportunities to collaborate and learn how technology supports our clients, financial representatives, and employees:

- Collaborate with fellow interns and employees across the Home Office (Bloomington, IL), Central Office (Minneapolis, MN), Southern Office (Alpharetta, GA), and the University of Illinois COUNTRY Financial DigitaLab
- Connect your work with our products and clients through a tour of our innovative Claims Training Lab.
- Engage in daily team stand-ups with team members and provide project updates.

To be considered for our corporate technology internships, visit us during a career fair at the following schools:

- Bradley University
- Georgia Tech
- Illinois State University
- Iowa State University
- Kennesaw State University
- University of Georgia
- University of Illinois Urbana-Champaign
- University of Minnesota

If you don't attend a school listed above and are interested, please email [ITS.Recruiting@countryfinancial.com](mailto:ITS.Recruiting@countryfinancial.com). Be sure to include your resume!
